Complete edition (ISBN 978-1-0666184-0-8): amazon.co.uk/dp/1066618402

PROFESSIONAL AND EDUCATIONAL WORK

2024-present **Founder, IREducation Ltd. (Hong Kong; UK activities through Oxford Advanced Learning).**
- Lead product architecture and curriculum publishing across integrated print and digital STEM resources; the company received support through the Google for Startups programme.
- Built IRMaths and its context-aware tutor, combining structured lessons, adaptive assessment, assessment-safe AI guidance, and teacher-facing analytics.
- Developed TeacherSearch, an algorithmic educator-vacancy marketplace privately demonstrated to the CEO and COO of Tes Global.

2024-present **Technical Consultant, Kovi HK.** Lead full-stack development of the company website and a custom workflow platform, streamlining operational efficiency. Also contribute to the development of an AI-driven quantitative trading model for Kovi's parent organisation.

2026 **Summer Intern, Valuation, Modelling & Economics, EY Hong Kong.** Built an Excel valuation tool using Capital IQ data and DCF, DDM, FCFF, and FCFE models; contributed to confidential financial modelling, data analytics, and economic analysis.

Ongoing **Economic Commentary & Consultancy:** *HKEJ Monthly* columnist on Hong Kong's economy and financial markets; one such column, on Hong Kong's international economic role through the WTO and APEC, was licensed by the Civil Service College for staff development. Additional op-eds in *The Standard*; external consultant to private schools and university applicants.

TECHNICAL SKILLS & LANGUAGES

Programming PHP, Python, SQL, JavaScript, HTML5/CSS3, LaTeX, and Git.

Systems Backend architecture, Linux server deployment, database management, API integration, web application maintenance, and scalable system design.

Data & Finance Statistical analysis, data visualisation, Excel valuation modelling, Capital IQ, and Bloomberg Terminal.
