ISAAC CHIT HANG TENG

鄧哲恆

isaacteng@ireducation.org | isaacteng.com | Hong Kong / London / Shenzhen

EDUCATION & QUALIFICATIONS

2025-present **University College London**, MSci Mathematics and Physics. Expected graduation: June 2029. First-year average: 77% (first-class). Transition mentor (2026).

2026 **Passed CFA Program Level I** (August 2026 sitting).

2023-2025 **Oxford International College**.
A-Levels: 4 A* grades in Mathematics, Further Mathematics, Physics, and Chemistry; A in AS Mathematics independently in 2022 (age 14).
GCSEs (1-year accelerated): 7 Grade 9s, A in Additional Mathematics.
English: Cambridge C2 Proficiency (Grade A; IELTS 9.0 equivalent); SAT: 1570.

PUBLICATIONS

Forthcoming **Teng, Isaac Chit Hang**. *CCEA Further Mathematics* (working title; expected 2027). In preparation. A comprehensive textbook series covering the complete Pure Mathematics course and every optional module.

2026 **Teng, Isaac Chit Hang**. *Advanced Statistics for Edexcel A-Level: Core, Further & STEP in One Volume.* Second edition. IREducation Inc. A 22-chapter textbook unifying Edexcel A-Level Statistics, Further Mathematics Statistics, and STEP preparation; currently used by students at 10+ schools.
Complete edition (ISBN 978-1-0666184-0-8): amazon.co.uk/dp/1066618402

PROFESSIONAL AND EDUCATIONAL WORK

2024-present **Founder, IREducation Ltd. (Hong Kong SAR).** Lead the development of curriculum-aligned educational software and teaching resources in mathematics, science, and university preparation. Direct product strategy, architecture, development, and deployment across the IRSeries, including the flagship IRMaths platform and the IR-AI adaptive tutor, combining interactive lessons, adaptive assessment, AI-supported feedback, and performance analytics. Also developed TeacherSearch, a B2B SaaS product, and performed a private demo to the CEO and COO of Tes Global. The company received support through the Google for Startups programme.

2024-present **Technical Consultant, Kovi HK.** Lead full-stack development of the company website and a custom workflow platform, streamlining operational efficiency. Also contribute to the development of an AI-driven quantitative trading model for Kovi's parent organisation.

2026 **Summer Intern, Valuation, Modelling & Economics, EY Hong Kong.** Contributed to confidential work spanning business valuation, financial modelling, data analytics, and economic analysis.

Ongoing **Writing and consultancy.** Columnist for the *Hong Kong Economic Journal* on emerging technology and societal trends. External consultant to private schools and university applicants.

TECHNICAL SKILLS

Languages PHP, Python, SQL, JavaScript, HTML5/CSS3, LaTeX.

Systems Backend architecture, Linux server deployment, database management, API integration, web application maintenance, and scalable system design.

Workflow & Tools AI-assisted prototyping, automated data and marketing pipelines, Git, and agentic coding frameworks.

AI / ML Development NLP, reinforcement learning, RAG pipelines, adaptive-learning architectures, and commercial/local LLM integration.

INTERESTS

Quantitative & Applied Mathematics: Mathematical physics, probabilistic inference, and autonomous AI trading systems.
Educational Technology: Statistical pedagogy, cognitive modelling, and AI-driven adaptive learning architectures.
Beyond Work: Legacy-game modding and preservation, omnivorous reading, and collecting (strictly herbivorous) elePHPants.
